Bringing Up Baby.

TIPS COLLECTED BY MRS. DAN GERBER, MOTHER OF 8

Sometimes we tend to forget the benefits derived from the simplest baby-care routines. Take baby's strollering sessions. Wheeling about in the fresh air reaps wonderful rewards. It invigorates appetite and sets a cheek to bloom. It jolies dispositions and makes the sandman welcome. Fresh-airing does all these things for you, too, so try not to skip these jaunts unless the weather is mean.

galavantin', one of those insulated ice-cream bags makes a swell carry-home container for a wet diaper.

In the crib. A gaily striped or colored beach towel makes a pretty and practical coverlet for baby's crib. Cheers up a room... is easy to wash... eliminates fancy ironing.

Fresh-air appetites appreciate the "stick-to-the-ribs" satisfaction of Gerber Strained and Junior Meats. Made from selected Armour cuts, they're ever so easy to digest. Most important, they're cooked by an exclusive Gerber-Armour method that protects precious nutrients, preserves true-meat flavors and assures an unusually smooth, moist texture. Altogether, they're the most succulent protein foods you can give your baby to aid his growth.

Baby basic. Baby cereals are pretty much a daily menu "must" from the infant age right through the toddler stage, for the iron and other important nutrients they supply. Gerber Baby Cereals are enriched with a special kind of iron that's easily absorbed by babies. Seven tablespoons will give your baby more than 100% of the recommended daily dietary allowance for iron. Calcium and important B-vitamins are also added for further nutritional benefits.
